

Reverse FAIRY TALE

Once upon a time there was a small kingdom named Arcadia. It was a beautiful place to live in, where people could find joy and have fun. It had awesome landscapes, and had many exotic plants and animals. Arcadia was one of the nicest places in the world till a tragedy happened...

It was a normal and sunny day, the royal family was about to have a very important meal, when suddenly they heard a very loud scream. The guards went to the princess's bedroom and they found out that she wasn't there, she had been kidnapped. The king was very worried so he offered a big reward for whoever found his daughter.

After two months she was still missing. The citizens were so depressed that they started to believe she was dead, they started to lose hope.

David was the prince of a near kingdom, he liked Kara ,the princess, very much, and he wanted to help. So he grabbed his horse and started looking for her. After spending nights in the woods, he found a tower made of rocks, covered with climbing plants. It looked old and abandoned, but David was known for being brave, so he got in. Once he was inside, he discovered that there were burnt things as if a dragon lived there and there was also a piece of a very expensive dress. At that instant he realized Kara was there, so he ran into the tower to rescue her. The prince went upstairs and opened a door, but he couldn't believe what he saw; there was a witch trapped in a chair and the princess was laughing next to her.

After this, David was shocked and was looking for answers, so he asked the witch what was happening and she told him that the princess had set a trap asking for her help, and had kidnapped her. The prince believed her and took the princess to the dungeon. After six months the witch and David fell in love, they got married and lived happily ever after.

The end.
